APPLES ARE A STAPLE AND PROFITABLE FRUIT

Buy Direct of the Growers and Sellers of Fresh Dug, High
Grade Fruit Trees, True to Name, and Save 50 Per Cent

The above illustration (from photo) shows the busy season at our packing grounds, where trees are being packed, boxed and baled ready for shipment to our patrons in the different states. We give personal attention to all orders shipped from our Nurseries.

Healthiest Nursery Stock in the World.

THE NURSERY STOCK grown at Dansville, Livingston County, N. Y., for many years has earned a high reputation all over the country. The attention of the fruit growers of late has also been called to the fact that this is the only large nursery center now free from San Jose Scale. On a beautiful sloping hillside in the healthiest section of all this favored region is the nursery farm of Maloney Bros. & Wells, consisting of 200 fertile acres.

Here are grown the old reliable standard fruit and ornamental trees and shrubs and many new and valuable varieties are grown here in accordance with the best time tested methods. Over 1,500,000 trees are under cultivation. Their equipment of buildings is unusually complete for handling fresh dug trees. They operate a special machine for digging trees with steam power so that all of the roots are saved and spare no expense in getting stock to buyers in absolutely perfect condition.

Thomas Maloney, whose experience as a nurseryman has covered 40 years, established this business in 1885. Later, his sons W. J. and A. E. Maloney became members of the firm. On the 1st of January

1908 F. W. Wells purchased the interest of Thomas Maloney who retired and the firm has since been Maloney Bros. & Wells.

W. J. Maloney and A. E. Maloney have been in the nursery business from their boyhood up and are experts in all matters pertaining to growing and marketing nursery stock and originating new varieties to meet the needs of modern fruit growers. F. W. Wells for 17 years was with the Green Nursery Co. of Rochester and as Secretary of that corporation attained national celebrity, owing to his original genius for business organization and in selling nursery stock through catalogue. All are gentlemen of the highest ability in their line with unsurpassed facilities for first class wholesale service. Fruit and berry growers, landscape gardeners and all who desire the healthiest and choicest stock anywhere in the United States should get in touch with this time tested and up-to-date firm which will fully and honestly give their advice as to when or what it is advisable to plant. Their rule is to return an order if they think it is for the best interests of the buyer not to plant in his locality.

—From Elmira Gazette.

How Best to Remit. Remit by Bank Draft, Express Money Order, Postoffice Money Order or Registered Letter. We will ship trees and plants C. O. D. providing 25% of the total of your order is sent in cash. If the order goes by express you pay the balance to your express agent upon arrival. If the order goes by freight you pay the balance at your bank where you will also find freight bill and order on your freight agent to deliver shipment to you.

Dansville Nurseries Free from San Jose Scale

N. Y. State inspector Barden unreservedly declares that Dansville is the only nursery center of any important size that is entirely free from San Jose Scale; this fact is not generally known. Mr. Barden believes that Dansville trees are worth five cents each more than the market price as the reputation of Dansville Nurseries for freedom from San Jose Scale and general vigor of its trees and plants is worth many thousands of dollars to the planter who buys Dansville grown trees.—*Dansville Advertiser.*

STATE OF NEW YORK DEPARTMENT OF AGRICULTURE

CERTIFICATE OF INSPECTION OF NURSERY STOCK

This is to Certify that the stock in the nursery of Maloney Bros. & Wells of Dansville, County of Livingston, State of New York was duly examined in compliance with the provisions of Section 83 of the Agricultural Law and it was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose Scale or other dangerously injurious insect pest or pests. This certificate expires Sept. 1, 1910

CHERRY TREES FOR MARKET AND GARDEN.

What is the matter with cherries? They are all right! Cherries to eat; cherries to cook; cherries to can. Cherries from the tree, on the table, in the pie.

There are few more desirable trees than the cherry, and they are being planted in larger numbers each year, as they can be grown for the market with great profit. It may be planted along the street or avenue as an ornamental, especially the Heart and Bigarreau varieties, which are strong, vigorous growers, with large, glossy and open, spreading heads, making a fine shade, and at the same time producing an abundance of the most delicious fruit. Cherries thrive in almost any dry or well-drained soil. The fruit is equally delicious whether eaten from the tree or preserved, and it will always find a ready market at profitable prices for shipping, canning, etc. The cherry tree bears almost every year, and is an easy fruiter.

PLANT FRUIT TREES
GROWN DIRECT FROM
BEARING ORCHARDS.

Montmorency Ordinaire Cherry

Montmorency Hardy Cherry. A beautiful, large, red cherry; much larger and firmer than Early Richmond, and fully 10 days later in ripening. Being extraordinarily prolific and very hardy, it can be recommended as a variety of great value. Valuable for canning and preserving.

A patron writes that six years ago he planted 50 Montmorency cherry trees from which he has just harvested \$150 worth of fruit. With him the Montmorency is the most profitable sour cherry.

Wragg. Much like English Morello. More productive and excels in size, yield and quality. One of the hardiest Cherries and has produced annual crops at the northernmost limit of Cherry culture.

Cherry Tree Collection No. 2

For the Home Garden

6 2-year trees for 98c

2 Montmorency	1 Early Richmond
1 English Morello	1 Ostheim
1 Dyehouse	

All trees two years, five feet high.

6 Cherry Trees, Special Bargain Price, 98c

Ostheim. A hardy Cherry from Russia. It has been tested in the severest winters of Minnesota and has been found perfectly hardy. Fruit large.

Dyehouse. A hardy and valuable cherry. The earliest cherry of fine quality. Often bears at two years old, and has the appearance of being covered with a purple cloth, such is the abundance of the fruit. Has the smallest pit of any cherry known. For tarts, pies, and especially for canning, it has no superiors among cherries.

Price for all varieties of Cherry trees on this page, grown on the best French imported Cherry stocks:

First class trees, 4½ to 5 feet high, 2 years, 20 cents each, 10 for \$1.80, 100 for \$15.00.

Extra size trees, 5 to 7 feet high, 2 years, 22 cents each, 10 for \$2.00, 100 for \$18.00.

Special one year trees, orchard planting size, 4 feet high, 18 cents each, 10 for \$1.65, 100 for \$14.00.

Early Richmond Cherries

Early Richmond. This is one of the most valuable and popular cherries and is unsurpassed for cooking purposes. This hardy cherry fruits on young trees soon after planting. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head exceedingly productive. Ripens through June.

Large English Morello Cherries

Large English Morello Cherry. Without doubt one of the most valuable of this class. Easily grown, generally producing a heavy crop. Fruit dark red, quality good, with a rich, acid flavor; late. Tree very hardy, for extremely cold latitudes. Aug.

Olivet. A new Duke of French origin. Unlike most others of this class, it is said to be very early and to ripen over a long period. Fruit very large.

May Duke. Large, red; juicy and rich; an old, excellent variety; vigorous, productive. June 15.

Louis Philippe. Large and beautiful fruits of blackish red; flesh tender, mildly acid, good to best. Mid-July.

Baldwin. Fruit very large, almost round, dark red, slightly subacid, the sweetest and richest of the Morello type. Remarkable for earliness, quality, vigor, hardiness and productiveness. June.

Vladimir. Hardy, strong grower, very productive, sub-acid, of excellent quality, juicy.

Reine Hortense. Large, bright red, vigorous, productive, delicious.

Proper Age and Size of Trees for Transplanting

Experience has taught observing planters that one year and small, young trees set at the same time will, in a few years overtake and pass a large one.

Price for all varieties of Cherry trees on this page, grown on the best French imported Cherry stocks:

First class trees, 4½ to 5 feet high, 2 years, 20 cents each, 10 for \$1.80, 100 for \$15.00.

Extra size trees, 5 to 7 feet high, 2 years, 22 cents each, 10 for \$2.00, 100 for \$18.00.

Special one year trees, orchard planting size, 4 feet high, 18 cents each, 10 for \$1.65, 100 for \$14.00.

Select Varieties of Sweet Cherries

One Year Sweet Cherry Trees the Best for Planting

We cannot too strongly recommend our patrons to plant one year sweet cherry trees, especially for orchards. They cost less, can be taken up with more perfect roots, are much more likely to live than two year trees, if you have heretofore planted two year trees and failed to make them grow, we advise you to try the one year trees as the largest and most successful planters invariably select one year trees.

BING CHERRIES

Bing Cherry. This valuable new black cherry succeeds everywhere. Tree very thrifty and upright grower, very hardy and productive, flesh very solid, flavor of the highest quality, a fine shipping and market variety. **Price of Bing Cherry Trees.** 1 year, 5 to 6 feet high, 40c each, 10 for \$3.50, 100 for \$30.00.

Black Tartarian. This fine old variety produces immense crops of very large, purplish black fruits of mild, sweet, jelly-like consistency. The tree makes a beautiful, erect growth. Late June and early July.

Windsor. A splendid, large, liver-colored Cherry that hangs a long time and rots but little. The flesh is remarkably firm and good, the tree very hardy and fruitful. Exceedingly valuable for late market and home use. July.

Yellow Spanish. Large, pale yellow, with red cheeks; firm, juicy and excellent, one of the best light-colored Cherries; vigorous and productive. Last of June.

Governor Wood. One of the best cherries; very large, light yellow, marbled with red; juicy, rich and delicious; tree healthy and a great bearer; hangs well on the tree; vigorous. Last of June.

Napoleon Cherry. Tree medium size, erect with roundish head, fruit borne generally in twos; very large oblong cordate, light lemon yellow with red cheek in the sun. Flesh very hard, brittle, colorless, reddish at the stone. Good, excellent bearer. Ripe about June 20th.

Schmidt's Bigarreau. Very large, deep black, tender, juicy, fine flavor. July.

Price of Black Tartarian, Windsor, Yellow Spanish, Governor Wood, Napoleon, Dikeman and Schmidt's Cherry Trees, 2 year, 5 to 6 feet high, 30 cents each, 10 for \$2.50, 100 for \$20.00.

Price of two year trees, extra size, 6 to 7 feet high, 35 cents each, 10 for \$3.00, 100 for \$23.00.

LAMBERT CHERRIES

Lambert Cherry. In size the largest cherry known. In some eastern towns these cherries are so large as to be mistaken for plums. Color, dark red, flavor sweet, rich, of highest quality. Tree hardy and vigorous grower, very productive.

Price of Lambert Cherry Trees, 1 year, 5 to 6 feet, 40 cents each, 10 for \$3.50, 100 for \$30.00.

Dikeman Cherry. Fruit large, black, firm, of excellent quality, fine keeper and shipper.

Dwarf
Apple Trees
Can Be
Planted in a
Small Space.

Often
Bear the
First Year
Planted.

A Dwarf Apple Tree in Bloom Trained to a Trellis or Wire Fence.

The Advantages of Growing Dwarf Fruit Trees

Dwarf fruit trees bear bigger, better fruit, bear several years earlier, and produce more returns for a given space than standard trees. This is all true and there are even more important points. The low broad heads are within reach, so that apples or pears can be easily picked. You can plant your garden full of dwarf trees and still grow strawberries and most vegetables. With dwarfs some varieties will bear the first year, all will the second year and bear a full crop the fourth year.

You can plant forty trees in a small space, save several years, get better fruit and each tree should bear a bushel a year.

We offer the best trees budded on Paradise or Doucin stocks. They will succeed in many places where standard trees fail. In a word, they are the kind of Dwarf trees that will put their strength into fruit instead of wood. To insure best selection of varieties order at once since our supply is limited.

Select Varieties of Apples

Apples are a Staple Product—Easily Handled and Preserved, for which there is a Permanent Demand and Market

The apple has long been recognized as our National Fruit. It will thrive on nearly any well-drained soil. Its period of ripening, unlike that of other fruits, extends nearly or quite through the year. By judicious selections of summer, autumn and winter sorts, a constant succession can be easily obtained.

There is no farm crop which, on the average, will produce one-fourth as much income per acre as will a good Apple orchard. The average price paid for the fruit is steadily on the increase, and the immense demand for home consumption, foreign shipping, canning and evaporating, assures us that it will continue to increase. We especially recommend planting late-keeping winter varieties.

If Apples are planted at the rate of 50 trees per acre, 30 feet apart each way, rows of peach trees can be planted between the Apples, which, growing more quickly than the Apple trees, soon protect them from winds, and thus prove a great benefit to them. After eight or ten years of productiveness, as the space is needed for the Apples, the peach trees may be removed, leaving the orchard better for the protection, and at the same time having yielded the planter a large return for his outlay and labor.

Our list of apples consists of the following varieties, which have been well tested and can be recommended as the best in cultivation :

Summer Varieties of Apples

Early Harvest. Medium to large size; pale yellow; tender, with a mild, fine flavor. Tree an erect grower and a good bearer; excellent for orchard and garden; one of the first to ripen. Middle to end of August.

Yellow Transparent. Medium size, roundish, oblate, slightly conical; skin pale yellow when fully matured; flesh tender, juicy, sprightly, sub-acid; good. August.

Tetofsky. Tree very hardy and productive, fruit striped and splashed with red, flesh white, firm, tender, juicy, quality fair to good. August to September.

Astrachan Red. Large, roundish, nearly covered with deep crimson overspread with a thick bloom; juicy, rich, beautiful, good bearer. August.

Fanny. Large, deep rich crimson, tender, juicy, pleasant. Tree vigorous and very productive. Aug.

Carolina Red Jnne. Small or medium, deep red, quality good, Tree hardy and a fine grower. Aug.

Golden Sweet. Large, pale yellow, tree a good grower and very productive. Aug. to Sept.

Williams Favorite. A bright red apple of mild agreeable flavor. Aug. to Sept.

Autumn Varieties of Apples

Princess Louise. Of medium size, color mixed and striped red over a yellowish ground; fine, juicy, tender; good quality. October.

Shiawassie Beauty. Fruit of uniform size; skin yellow with attractive red splashes and striped with carmine; flesh white, fine, crisp, tender and juicy, quality very good. Oct. to Jan.

Duchess of Oldenburg. A large, beautiful Russian apple; roundish; streaked red and yellow; tender, juicy, pleasant; a kitchen apple of best quality, and esteemed by many for dessert. Tree a vigorous, fine grower, and an abundant bearer. Succeeds well in the Northwest, where most varieties fail. The hardest valuable fall apple. We find Duchess the most valuable commercial variety, free from blight, a sure cropper, hardy as an oak, having survived in some instances when all others died (except Wealthy), and all in all a wonderful variety. Very hardy. Aug. and Sept.

Maiden's Blush. Large, flat; pale yellow with a red cheek; beautiful; tender and pleasant, but not high flavored. Tree an erect grower, and a good bearer. A valuable market apple. Sept. and Oct.

Alexander. Of Russian origin. Large; deep red or crimson; flesh yellowish white, crisp, tender, with pleasant flavor. Tree very hardy. October.

Price for all varieties of Apple Trees on this page grown on the best French Imported Apple stocks:

First class trees, 2 year, 5 to 6 feet high, 20 cents each, 10 for \$1.95, 100 for \$19.00.

Extra size trees, 2 year, 6 to 7 feet high, 25 cents each, 10 for \$2.45, 100 for \$24.00.

TELL US YOUR REQUIREMENTS

We charge nothing for advice and will advise you fully and frankly.

While we are in business to make money, we frequently advise people not to plant in certain sections.

One of the reasons why we have a large nursery business is because we do it on a "Golden Rule" basis.

Any nurseryman who does otherwise can never have a very large business.

If you want any further information, we want to hear from you.

Don't hesitate to ask questions.

Showing two of our well grown 2 year old Apple Trees 5 to 6 feet high.

Wealthy, One of the Most Profitable Early Winter Apples

Wealthy Apple. A patron writes that from 450 Wealthy apple trees 5 years planted, he sold \$600.00 worth of fruit, some trees yielding a barrel of apples. From one tree 4 years old he picked 3 bushels of apples. Wealthy is one of the best red early winter apples. Owing to its early bearing qualities it is planted largely as a filler. Its extreme hardiness makes it a valuable variety for the Eastern States and is considered to be one of the best all around early winter apples to grow. Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good. Oct. and Nov.

Autumn Strawberry. Medium, streaked, tender, juicy, fine, vigorous and productive. Sept. to Oct.

Gravenstein. Highly flavored, productive, handsome and excellent. Fine in all localities. Sept. to Nov.

Fameuse (Snow apple.) Medium size; deep crimson; flesh snowy white, tender and delicious; valuable for market. Nov. to Jan.

Winter Varieties of Apples

Rhode Island Greening. Known everywhere. This large and superior winter apple is famous over a large extent of country, and is more highly prized for cooking and eating than any other variety. It is a good keeper but will keep better if picked early. This Greening is a beautiful yellow color when ripe, and is a most abundant yielder. March to April.

Pewaukee. Raised from the seed of Oldenburg. Fruit medium to large, roundish, oblate; skin bright yellow, striped and splashed with dark red; flesh white, tender, juicy, sub-acid. *Esteemed especially for cold climates on account of its hardiness.* January to May.

Grimes' Golden. Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Grown in the South and Southwest. January to April.

Hubbardston. (Hubbardston Nonsuch.) Large; striped yellow and red; tender, juicy and fine; great bearer. One of the best. Nov. to May.

Walbridge. Medium size, oblate, regular; skin pale yellow shaded with red; flesh crisp. Hardy and productive: a late keeper. January to May.

Price for all varieties of Apple Trees on this page grown on the best French imported apple stocks:

First class trees, 2 year, 5 to 6 feet high, 20 cents each, 10 for \$1.95, 100 for \$19.00.

Extra size trees, 2 year, 6 to 7 feet high, 25 cents each, 10 for \$2.45, 100 for \$24.00.

Showing size of our
2 Year Old Apple Trees
4 to 5 feet high.

Don't fail to plant trees
from the grower to the
planter direct.

Fruit Growing Pays. Right in your own locality people are making big money growing Apples, Peaches, Plums, Pears and small fruits.

You cannot afford to delay planting. Commence now by purchasing a few trees and plants direct from the growers of strictly first-class stock grown from selected bearing trees.

Picking King Apples in one of the Most Profitable Apple Orchards in New York State.

King (King of Tompkins Co.) When you see in the market apples of extraordinary size, beautiful red in color, specimens that attract the attention of everybody who passes by, you may know that these are the King apple, an appropriate name since it is of the largest size and possessed of the greatest beauty. The market is never fully supplied with this variety, since its size and beauty make it in great demand. Tree a vigorous grower, good bearer and hardy. Nov. to Jan.

Greenville. Seedling of Maiden Blush, large, yellow with red cheek, crisp, tender and juicy. Nov. to Feb.

Fallwater. Very large, yellow with dull red cheek, juicy, crisp, pleasant, sub-acid, very productive. Nov. to Mar.

Stayman's Winesap. A seedling of Winesap but larger, better and more productive. Dec. to Apr.

Tolman's Sweet. Flesh firm, rich and sweet, valuable cooking apple. Nov. to Apr.

Salome. Long keeping, annual bearer, firm, fine grained, tender, very good. Nov. to Mar.

Sutton Beauty. Tree vigorous, upright, spreading, fruit uniform in size and shape, fine grained, crisp, tender, very good. Color bright red striped with carmine. Nov. to Mar.

Boiken. Annual bearer, vigorous grower. Fair size, hardy; bears young, very attractive and regarded as one of the most valuable apples of recent introductions. Nov. to Mar.

Paragon. Late keeper, large, of good color and quality, very productive. Dec. to May.

Yellow Bellflower. Adapted to the northern and middle states; highly esteemed for its excellent dessert qualities. Oct. to Feb.

Golden Russet. Particularly desirable for home use. Tree hardy and reliable cropper. Dec. to Apr.

Rambo. Fine in nearly all localities. Streaked and marbled with dull yellowish red on pale yellowish ground. Nov. to Mar.

Stark. Large, striped, mild, sub-acid, good. Valuable as a keeper. Jan. to May.

Baxter. A large red apple, decidedly attractive in appearance; vigorous and productive. Nov. to Jan.

Smith Cider. Valued for its hardiness, productiveness and handsome fruit, red on pale greenish yellow. Nov. to Mar.

Bailey Sweet. A beautiful red apple of good quality. Oct. to Jan.

Wolf River Apples.

Wolf River. Originated in Wisconsin, and for many years has successfully stood that rigorous climate. Fruit is very large, some specimens weighing 27 ounces; round, flattened, conical, highly colored. An excellent cooking apple. Sept. to Dec.

Walker Beauty. Tree a good grower, bears young, very productive, fruit attractive in color. Nov. to Apr.

Seek No Further (Westfield). An old favorite dessert apple. Oct. to Feb.

Quality Apple Tree Collection

12 Apple Trees for \$1.85

2 Dutchess,	1 Pewaukee,	2 Wagener,
1 Wealthy,	2 Baldwin,	1 McIntosh,
2 York Imperial,	1 Maidens Blush,

12 Trees, Special Bargain Price \$1.85

Price for all varieties of Apple Trees on this page grown on the best imported French apple stocks:

First class trees, 2 years, 5 to 6 feet high, 20 cents each, 10 for \$1.95, 100 for \$19.00.

Extra Size trees, 2 years, 6 to 7 feet high, 25 cents each, 10 for \$2.45, 100 for \$24.00.

McIntosh, The Famed Red Winter Dessert Apple

McIntosh Red Apple. An exceedingly valuable, hardy, attractive apple. A good annual bearer of fair, handsome fruit, being especially desirable for fancy trade. It comes into bearing young, yielding large crops of fine fruit almost annually. October to January.

American Blush one of the best Apples

American Blush. (High Quality Red Winter Apple. Here is an apple that is not surpassed the world over for large size, great beauty of color, or for excellent quality. It is an apple that should be growing in every garden and orchard. Fruit large, roundish; color bright red on yellow skin; flesh yellow, with a fine, rich, aromatic flavor, sub-acid. The tree is a vigorous grower, and is exceedingly productive, bearing an abundant crop of fruit every year. November to January.

WINTER BANANA APPLE
FINEST TABLE APPLE IN THE WORLD
BEARS FRUIT AT TWO YEARS OLD.

Winter Banana. Fruit large size, perfect in form; golden yellow, and beautifully shaded and marbled with bright crimson red; flesh lemon-yellow, fine grained, sub-acid, rich, aromatic flavor, and of the highest quality. A good keeper. Tree remarkably strong grower, and on account of its great hardiness, will thrive in any climate. Its early bearing is something simply wonderful, generally producing a fine crop the second year. A valuable market variety. November to January.

Price for all varieties of Apple trees on this page, grown on the best French imported Apple stocks:
First class trees, 2 years, 5 to 6 feet high, 25 cents each, 10 for \$2.25, 100 for \$20.00.
Extra size trees, 6 to 7 feet high, 2 years, 30 cents each, 10 for \$2.75, 100 for \$25.00.

Maloney Bros. & Wells, Dansville, N. Y. Dear Sirs: I have one Banana Apple tree that I bought at one year old, planted 3 years, which had 13 apples on last year. Very truly yours, J. B. K. Roosevelt, Okla., Feb. 28, 1909.

Northern Spy. A hardy, red winter apple, a vigorous and healthy grower, forming an upright tree of large size quicker than most varieties. It has no superior for beauty and quality. When at its best it is of large size and an abundant bearer, and a good keeper. Dec. to Feb.

Longfield. An early and abundant bearer; medium to large; yellow, with a blush on sunny side. Dec. to Mar.

Mann. Fruit medium to large; skin deep yellow, flesh yellowish, mild, pleasant, sub-acid. An early and annual bearer. Jan. to Apr.

Ontario. Fruit large, uniform in size and shape; color, yellow splashed with carmine, highly colored, flesh tender, sub-acid, especially desirable for culinary use. Nov. to Mar.

Gano. An improved Ben Davis, adding to the good qualities of that variety a much handsomer fruit of deep, dark red, that brings a ready sale in market. Dec. to Mar.

Rome Beauty. A large and handsome apple, almost entirely covered with bright red; of high quality. The flesh is tender, juicy and highly flavored. It is a popular apple over a wide range of country particularly in the West. Dec. to Mar.

Baldwin. A great market apple, very productive of fair, handsome fruit. No variety yields larger crops or bears shipment better, or is more attractive in color and size and shape, than the Baldwin. It is esteemed as an eating apple, and for cooking. Thousands of barrels of this fruit are exported to England annually.

York Imperial. Medium late. Fruit of medium size, round, oblate; skin greenish yellow striped with bright red; flesh yellow, crisp and juicy. Quality excellent. Good for home use or market. Nov. to Feb.

The Popular Ben Davis Apple

Ben Davis Apple is hardy and attractive, succeeds wherever apples are grown. There is no apple that has more favors on account of its hardiness, productiveness, beauty and endurance in shipping. It is excellent for cooking. There are better apples, but where Ben Davis succeeds one can always be sure of success, owing to its regular and heavy bearing qualities. November to April.

Price for all varieties of Apple Trees on this page grown on the best French Imported apple stocks:
First class trees, 2 year, 5 to 6 feet high, 20 cents each, 10 for \$1.95, 100 for 19.00.
Extra size trees, 2 year, 6 to 7 feet high, 25 cents each, 10 for \$2.45, 100 for \$24.00.

Wagener, Beautiful Red Winter Apple

Wagener (Red Winter Apple). Wagener is one of the most beautiful winter apples ever grown. It is of the highest quality, the flesh being crisp, tender and aromatic. We know of no apple possessing greater beauty or of finer quality than the Wagener. It succeeds well East and West. No orchardist's list of varieties can be complete without this beautiful and superior flavored apple. Of medium to large size; firm fleshed, sub-acid and fine quality. Dec. to May.

Gideon. A prolific bearer, vigorous, yellow, fine, juicy, sub-acid.

Best Hardy Crab Apples

Hyslop. Fruit large, deep crimson; produced in clusters; flesh yellow, sub-acid; good for cider and culinary purposes; popular on account of its large size, beauty and hardiness.

General Grant. Large, round, yellow, covered with stripes of red, and when exposed to the sun, turning quite dark; flesh white, fine grained, a good grower, hardy and productive,

Transcendent. This is the best and largest of the Siberian Crabs. The fruits are 1½ to 2 inches in diameter, bright yellow, striped with red; excellent for culinary use. Immensely productive.

Woodsville, Ohio, April 23, 1909.

Maloney Bros. & Wells, Dansville, N. Y.

Your shipment of trees arrived today and I am more than pleased with them. Many thanks for extras.
Yours truly, C. V.

Select Varieties of Plums

York State Prune Tree in
Full Bearing

The Plum has not been planted as extensively as it deserves, and the lack of planting has doubtless been partly due to difficulty in marketing; but with the demand for good fruit in our eastern markets almost unlimited, and the establishment of canneries in most important fruit sections, they are again being planted in large quantities, as it is known that a little care and attention at the proper time will insure a profitable crop.

Plums are hardy and grow vigorously in nearly all sections, succeeding on any soil that grows good corn or potatoes. Plum trees are planted about as far apart as peaches; that is, from 15 to 18 feet apart each way. Many growers prefer to plant them closer one way than the other, and eventually to stop cultivation in one direction. If this system is used they may be placed 18 or 20 feet apart one way, and from 10 to 12 feet the other way. The trees are pruned the same way that apple trees are, when planted.

PLANT FRUIT TREES
GROWN DIRECT FROM
BEARING ORCHARDS.

Groaning Under the Weight. Portion of a Burbank Japan Plum Tree in Fruiting.

Burbank is one of the best of Japan Plums. Unsurpassed for beauty and productiveness, as well as great hardiness of tree, with a foliage so perfect as to contribute in an essential degree to its health. Fruit large, oval, often with a slight neck; skin reddish purple; flesh yellow, rather coarse, but juicy and good. Its beauty as a market variety is unsurpassed. Last of August.

Price for all varieties of Plums on this page, grown on the best French imported Plum stocks:

First class trees, 5 to 6 feet high, 2 years, 18 cents each, 10 for \$1.50, 100 for \$12.50.

Extra size trees, 6 to 7 feet high, 2 years, 20 cents each, 10 for \$1.80, 100 for \$16.00.

Special Orchard Planting Size, 4 to 5 feet high, 10 cents each, 10 for 85 cents, 100 for \$6.48.

Our Success in the nursery business depends entirely upon the success of our patrons; and they can only succeed with strong, healthy, well-rooted trees true to name. Upon this basis we solicit your patronage.

Abundance—One of the best Japan Plums. The tree a rapid grower, healthy, comes into bearing remarkably young and yields abundantly. Fruit of medium size, large when thinned; amber, with markings of red; juicy, sweet, of good quality when well ripened. May be picked when it begins to color; will keep a long time, color well and be almost as rich and sweet as if ripened on the tree. August.

Satsuma (Blood). A delicious Plum for canning, already famous for that purpose, and a grand market sort; in season after the European Plums and the main crop of peaches are gone. Very large, nearly round, with deep red skin and flesh; firm of good flavor; will keep from one to three weeks after picking. Yields well.

Red June. The great early market Plum. Medium to large; deep vermillion-red, with beautiful bloom; very showy; flesh light lemon-yellow, firm, slightly subacid, delightful; half-cling, with small stone. "Reliability of tree, size and beauty

A Branch of Abundance Plums. Tree very productive

Plum Tree Collection No. 2

6 One Year Trees for 75c

2 Burbank	1 Abundance
2 Red June	1 Wickson

All trees of orchard planting size, 4 to 5 feet high, 1 year.

6 Plum Trees, Special Bargain Price 75c

red, covered with a light bloom; the pit is small for so large a fruit, the flesh is thick, sweet, tender and rather dry, indicating good keeping and shipping qualities. The fruit sells almost on sight. Large orchardists are planting this Plum by the thousand. September.

Red June Plum

of fruit, its early ripening and long-keeping qualities make this Plum a prize-winner." It is the best in quality of any of the early Japanese plums, free from rot. Ripens in early August.

Hale. Fruit medium to large; yellow, mottled and speckled red; flesh soft and juicy, yellow; cling; of good quality. Tree a moderately spreading vigorous grower. Follows Burbank in ripening. Last of August.

Wickson. This largest of the Japan Plums is superb in every way. The color is bright cherry-

Wickson Plum

Price for all varieties of Plum on this page, grown on the best French Imported Plum Stocks.
First Class Trees, 5 to 6 feet high, 2 years, 18c each, 10 for \$1.50, 100 for \$12.50.
Extra Size Trees, 6 to 7 feet high, 2 years, 20c each, 10 for \$1.80, 100 for \$16.00.
Special Orchard Planting Size, 4 to 5 feet high, 10c each, 10 for 85 cents, 100 for \$6.48.

Shropshire Damson (Very Productive)

Shipper's Pride. Large, nearly round; dark purple; quite juicy, sweet; splendid shipper and marketer; moderate grower; productive. Originated in northwestern New York.

Niagara Plum. This plum has become exceedingly popular throughout Western New York, where it originated. It is a very early plum, and valuable for this reason. It is red, large size, making an attractive appearance in market, and possesses good shipping qualities. It bears enormous crops of fruit. Tree is an upright grower, vigorous and healthy. Middle of August.

Moore's Arctic. Valuable for its productiveness and extreme hardiness. Fruit grown in clusters. Color dark blue or nearly black when fully ripe. Dr. Hoskins says this is the hardiest plum he has tested.

Yellow Egg Plum

A very large and beautiful egg shape plum, excellent for cooking, a rapid grower and very productive. Last of August.

Price for all varieties of Plum on this page, grown on the best French Imported Plum Stocks.

First Class Trees, 5 to 6 feet high, 2 years, 18c each, 10 for \$1.50, 100 for \$12.50.

Extra Size Trees, 6 to 7 feet high, 2 years, 20c each, 10 for \$1.80, 100 for \$16.00.

Special Orchard Planting Size, 4 to 5 feet high, 10c each, 10 for 85 cents, 100 for \$6.48.

WE HAVE THOUSANDS OF FLOWERING SHRUBS, VINES AND ORNAMENTAL TREES.

We have no room to offer a long list of varieties this Fall so if you do not find what you need in this Catalogue, write us for prices. We can save you money on anything you might need.

Shropshire Damson. One of the favorite Damsons. Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters or groups, dark purple color, esteemed for preserving. October.

Reine Claude. (Bavay's Green Gage)—Roundish, oval, greenish, marked with red in the sun; a great favorite. September.

Imperial Gage. Rather large; oval; greenish; flesh juicy, rich and delicious, parts from the stone. Tree a vigorous grower; very productive and one of the best of plums. Middle of August.

Pond's Seedling. A magnificent English plum; form of Yellow Egg; light red changing to violet; flesh rather coarse. Tree a vigorous grower and most abundant bearer. Sept.

Bradshaw Plum

Bradshaw Plum. A very large and fine early plum, dark violet red, juicy and good. Trees erect and vigorous; very productive; valuable for market. The tree is very hardy and vigorous. As regards productiveness it is unequaled by any plum we have ever fruited. To produce the finest fruit, heavy thinning should be practiced. The quality is excellent, and is destined to become one of the most popular of all plums for canning, while its attractive color, good quality and shipping properties will cause it to be sought for as a market variety. Middle of August.

Grand Duke. One of the best late plums for market, as large as Bradshaw, of same color, entirely free from rot. Last of September.

General Hand. A very large plum; roundish; color, deep yellow; flesh juicy.

FELLEMBERG (French or Italian Prunes)

Fellemburg Prunes. A fine prune, oval; purple; flesh juicy and delicious; parts from the stone; fine for drying; Tree very productive. September.

French Prune (see Fellemburg)

Italian Prune (see Fellemburg)

York State Prune one of the largest, best in quality and most productive of all prunes, large size, color dark blue, covered with purple black, delicious; freestone, last of August; originated at Dansville, N. Y., a vigorous grower and hardy.

German Prune—Medium; oval; purple or blue; juicy, rich, fine. Tree vigorous and very productive. One of the best. September. Sells for higher prices in market on account of high quality. A leading favorite. There is no easily grown fruit that gives greater or more certain profit than the German Prune.

The Thanksgiving Hardy Prune—Very productive, good quality and long keeper. It will keep for weeks and months after picking like an apple. Another year's experience leads us to think that we have not claimed enough for it. We did not know that it was a very hardy variety until the winter of 1904 established that fact. This winter was the most severe ever experienced, and in consequence nearly all plum trees growing in the nursery rows in this country were injured or destroyed.

Hungarian Prune. (Pond's Seedling) Very large, dark red, juicy and very sweet. Its large size, bright color, productiveness and shipping qualities render it a profitable variety for home or distant markets. September.

Tatge—Evidently a seedling of the Lombard. Is larger, more nearly round, darker color and finer quality than that well known and excellent variety. Claimed to be the hardiest, most productive and longest-lived plum known.

Lombard—Medium, violet red, juicy, pleasant and good. The tree adapts itself to any locality; it is extremely hardy, producing good crops where many varieties will not even grow; it is a strong growing tree; it is exceedingly productive. The fruit usually hangs so thick on the limbs that by thinning out one half it will make the remaining larger, brighter and better fruit. September.

Geuii—(Blue Magnum Bonum)—This is one of the newer varieties originating in New York state. Season of ripening rather late. The color is a dark purple. The flesh is firm, sub-acid and agreeable. Size large. It would be difficult to select a larger or more attractive plum for the garden or orchard than this.

When we plant a tree we are doing what we can to make our planet a more wholesome and happier dwelling place for those who come after us, if not for ourselves.

Oliver Wendell Holmes.

Price for all varieties of Plum trees on this page, grown on the best French imported Plum stocks:

Extra size trees, 6 to 7 feet high, 2 years, 20 cents each, 10 for \$1.80, 100 for \$16.00.
Special Orchard Planting Size, 4 to 5 feet high, 10 cents each, 10 for 85 cents, 100 for \$6.48.

The Roosevelt Plum from a Photograph

The Roosevelt Plum

After years of careful investigation we have secured a large sugar plum, "The Roosevelt." This variety was first offered under the above name as a premium by a publication at Rochester, N. Y., who claimed they had been watching this plum for the past few years and were surprised at the results obtained in that section. The fruit of the Roosevelt Plum should readily sell at a dollar a basket. It takes years to produce a variety that is better than those now on the market, and if you are willing to share a small part of the expense incurred, we will share the rest, by offering trees of this variety at a live and let live price.

The Roosevelt Plum is very productive, fruit large, color purple, good quality, and unexcelled for eating and canning purposes. The tree is a hardy, vigorous, upright grower, and is one of the most remarkable plums yet introduced. It has been thoroughly tested by a few prominent orchardists.

Price for the Roosevelt Plum grown on the best French Imported Plum Stocks.

First class trees 5 to 6 feet high, 2 years, 30 cts. each, 10 for \$2.50.

Extra size trees, 2 years, 6 to 7 feet high, 35 cents each, 10 for \$3.00.

Special Orchard Planting Trees, 4 to 5 feet high, 25 cents each, 10 for \$2.25.

York State Prunes

York State Prune. One of the largest, best in quality, and most productive of all Prunes, large size, color dark blue, covered with purple black, delicious, freestone, originated with us at Dansville, a vigorous grower and hardy. Last of August.

Coe's Golden Drop. Very large, light yellow, often dotted with red in the sun; an excellent late sort.

Spaulding. Flesh pale yellow, very sweet.

Green Gage. Flesh pale green, melting, juicy, exceedingly sweet and rich, and unequaled in flavor.

Field. A large, handsome, dark blue plum, almost black, of good quality.

Diamond. A large magnificent plum, color a dark purple, with a beautiful bloom. Tree hardy and productive.

Monarch. Tree an abundant bearer. Fruit large, dark purplish blue with dense foliage.

Tennant Prune. Large, dark purple, with a blue bloom.

Botan. One of the oldest known Japan varieties, hard and productive, of good quality. August.

October Purple. One of the hardiest of the Japan plums. Productive, of good quality and especially recommended.

Sultan. Another of the Japan plums, very attractive, good keeper and shipper.

Chabot. Medium to large, cherry red, flesh yellow, sweet, very prolific. One of the best Japan plums.

Price on all varieties of Plums (except Roosevelt) grown on the best French Imported Plum Stocks.

First Class Trees, 5 to 6 feet high, 2 years, 18 cents each, 10 for \$1.50, 100 for \$12.50.

Extra Size Trees, 6 to 7 feet high, 2 years, 20 cents each, 10 for \$1.80, 100 for \$16.00.

Special Orchard Planting Size, 4 to 5 feet high, 10 cents each, 10 for 85 cents, 100 for \$6.48.

Select Varieties of Peaches

The Peach requires a well-drained, moderately rich soil ; sandy loam is probably the best. Keep it clean and mellow about the roots of the trees, which are benefited by an occasional dressing of wood-ashes or potash in some other form. In planting, always cut back the stems of young trees about one-third and cut side branches to a single bud. Yearly pruning is necessary in order to keep the heads low and well furnished with bearing wood, for the fruit is borne on wood of the previous season's growth. Fine orchards of bearing trees in different sections bear convincing evidence as to purity and superiority of the trees we ship.

Elberta Peach, Hardy and Productive

Elberta Peach. Unsurpassed as a valuable, large, beautiful peach of good quality. The best orchard variety, and valuable also for planting in the garden. A friend near here has planted many acres entirely to Elberta. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. Elberta is large, yellow, with red cheek, juicy and high-flavored, flesh yellow ; freestone. Season medium early, following quick upon Early Crawford.

Crawford's Late. Fruit of large size ; skin yellow, or greenish yellow, with dull red cheek ; flesh yellow ; tree vigorous, moderately productive. One of the finest late sorts. Last of September.

Crawford's Early. A magnificent large, yellow Peach, of good quality. Tree vigorous and very productive. Its fine size, beauty and productiveness make it one of the most popular sorts ; no other variety has been so extensively planted.

Chair's Choice. Has no superior in quality and flavor, and for profit is without a rival ; large, yellow, free, rich in color, flesh very firm, and ripens after Smock ; great bearer.

Foster. Large, deep orange red, becoming very dark red on the sunny side ; flesh yellow, very rich and juicy, with sub-acid flavor ; earlier than Early Crawford ; very handsome.

Price for all varieties of Peach trees on this page : First class 4 to 5 feet, 10 cents each, 10 for \$1.00, 100 for \$7.00. Largest size, 5 to 6 feet, 12 cents each, 10 for \$1.15, 100 for \$9.00.

Note : In planting peaches, it is of the highest importance to cut back the trees severely. The stem should be reduced about one-third and the side branches cut back to one bud. This lessens the demands upon the roots, and enables the remaining buds to push more vigorously. Most failures in newly planted orchards may be ascribed to a non-observance of these directions

One of our largest size peach trees, 5 to 6 feet high.

The same tree pruned, cut back and planted.

It sometimes happens that we send two catalogues to one address. If you should receive more than one copy, please hand the extra one to some friend who will be interested in it.

Yellow St. John Peaches. (The best early yellow freestone peach.)

Yellow St. John. One of the best of the early yellow varieties, exceedingly valuable for an early market variety, of medium size, orange yellow with a red blush on sunny side, flesh tender, juicy and quality very good. Popular in many sections. August 15th.

Crosby. Medium size; bright orange yellow streaked with carmine. One of the best standard market sorts.

Engle's Mammoth. Large, round, suture slight; yellow with red cheek; flesh yellow, stone small, free; sweet, rich, juicy.

Fitzgerald. It is one of the hardiest peaches, both in bloom and tree; very prolific, large size.

Early Rivers. Large, light straw color, with delicate pink cheek; flesh juicy and melting.

Triumph. Earliest yellow-flesh peach, with good eating and shipping qualities, sure and abundant bearer; strong, vigorous grower.

Smock Free (Beers Smock.) Fruit large, oval; skin orange yellow, mottled with red; a good market sort.

Champion. Fruit large, beautiful in appearance; flavor delicious, skin creamy white, with red cheek; freestone. Trees hardy and prolific. One of the best varieties for home use.

Kalamazoo Peaches. (One of the most profitable varieties.)

Kalamazoo. Large, golden yellow, with crimson cheek; flesh thick yellow, superb quality, small pit. Strong grower, early bearer, hardy and productive.

Price for all varieties of Peach trees on this page: First class, 4 to 5 feet high, 10 cents each, 10 for \$1.00, 100 for \$7.00. Largest size, 5 to 6 feet high. 12 cents each, 10 for \$1.15, 100 for \$9.00.

NOTICE—Any person sending us an order for trees and plants, who will enclose names and addresses of ten of their friends and prospective buyers, we will include additional trees with their order. This is an opportunity to get a few trees, with very little additional work.

The Delicious and Popular Niagara Peach (reduced size)

Niagara Peach. One of the best peaches that has been introduced for many years past is the Niagara. It originated in Niagara county, New York and has been grown there for about ten years past, but only in a small way, until very lately. There are some commercial orchards that now have bearing trees of it in large quantities, not only in New York, but in other States, and they are doing splendidly, not only is the peach a good fruit to eat but the trees are hardy and healthy in leaf and bud and bear abundantly.

The fruit of the Niagara peach is much like that of Early Crawford in appearance, being large, oval, yellow with brilliant red cheeks. The stone parts very freely from the flesh. The flavor is rich and piquant reminding one of the very best peaches he ever ate, and far ahead of Elberta in this respect. Indeed, it is a rival of that famous variety as a market peach with several points in its favor as to quality.

The season is medium early, coming in just before Elberta and overlapping it a week or more. Those who intend to plant peach trees will do well to set some of the Niagara.

Price of Niagara Peach Trees. First Class 4 to 5 feet 10c. each, 10 for \$1.00, 100 for \$8.00. Largest size, 5 to 6 feet, 14c. each, 10 for \$1.25, 100 for \$10.00.

War Dept. Washington, Apr. 27, 1908
Maloney Bros. & Wells, Dansville, N. Y.

I received my order of trees yesterday, and was very much pleased with them. They are the healthiest and cleanest lot of trees I have seen in many a day.

Yours respectfully,
P. J. G.

Westfield Fruit Farms Co., Pa., June 18, 1908.
Maloney Bros. & Wells, Dansville, N. Y.

Our Superintendent states that the trees received are all doing well with the exception of 5 out of a total of 235 trees.

We will place another order with you for next year and will take pleasure in giving your name to our friends and neighbors who are looking for nursery stock, feeling sure they will be well treated.

Yours truly, J. B. Keefe,
Officer of D. L. & W. R. R.

Center, Texas, June 27, 1909.
Maloney Bros. & Wells, Dansville, N. Y.

The fruit trees purchased from you are certainly the finest I ever bought.

Very truly yours,

Mrs. T. T. S.

Boyne, Mich., May 24, 1909.
Maloney Bros. & Wells, Dansville, N. Y.

I received the trees all in good condition, and am well pleased with them.

Yours truly,
O. L.

North East, Pa., May 23, 1909.
Maloney Bros. & Wells, Dansville, N. Y.

We were well pleased with the trees you shipped me and from the way they were packed, am sure of good results.

Very truly yours,
E. A. C.

Rochester, N. Y., May 6, 1909.
Maloney Bros. & Wells, Dansville, N. Y.

I want to thank you for the prompt attention given my order, and to say that it was the finest stock I ever received.

Yours truly,
C. P. S.

Albion, N. Y., May 17, 1909.
Maloney Bros. & Wells, Dansville, N. Y.

Several of the largest fruit growers have seen the 500 peach trees bought of you and pronounced them the best of all the trees shipped in here this spring.

Very truly yours,

J. M. D.

Our 5 to 6 feet Bartlett Pear Tree. Tall, thrifty, well headed and abundantly rooted.

75,000 Bartlett Pear Trees

THE FINEST IN AMERICA

A Bartlett Pear Orchard Properly Located and Intelligently Handled is the Best Investment that a Man Can Make

For years we have been growing pear trees and today have the best block of 75,000 two year Bartlett pear trees in the U. S. Every tree is from 5 to 7 feet in height, well branched and abundantly rooted. The soil of our nurseries is particularly adapted to their culture. No better trees than ours either Standard or Dwarf, can be sent out from any Nursery. Dansville trees are the very best obtainable. The Pear will grow on almost any soil, but thrives best in a rather heavy clay or loam.

A patron, H. D. B., Troy, N. Y., writes that he marketed 1000 barrels of pears, which were sold for \$3,250, and that the product of his 60 acre farm in 1903 was \$7,200, and in 1904, \$7,400.

Our patron, J. B. B., Boise, Idaho, writes that last year, from his 3 acre pear orchard, he picked 850 boxes, which sold in New York City for \$3,825.

Bartlett. Large, coloring when fully ripe to waxen yellow with red blush; juicy, melting, highly flavored. The tree bears early and abundantly. May be grown either as dwarf or standard, but succeeds best as a standard. Aug. and Sept.

Clapp's Favorite. A superb, large, long, yellow Pear, richly flushed with russet-red next the sun; juicy and delightful; ripens before Bartlett. Pick the fruit of this variety at least ten days before it ripens on the tree. Aug.

Seckel. A beautiful and delicious little Pear that is the standard of excellence in its class. One of the richest and highest-flavored Pears known, always in demand for desserts and luncheons and better known than any Pear of its class. The tree makes a somewhat slow but stout and erect growth. Sept. and Oct.

Price for Standard Bartlett, Clapp's Favorite and Seckel grown on the best French imported pear stocks:

First class trees, 2 years, 5 to 6 feet high, 30 cents each, 10 for \$2.50, 100 for \$20.00.

Extra size trees, 35 cents each, 10 for \$3.00, 100 for \$25.00.

Special one year trees, 4 to 5 feet high, 25 cents each, 10 for \$2.00, 100 for \$17.00.

Sheldon. A large, round, russet-and-red Pear of the very first quality. Hardy, free-growing. Oct.

Beurre D'Anjou. A large greenish Pear, shaded with russet-crimson; the flesh is high flavored, rich and vinous; the tree very productive, either as dwarf or standard. For late fall and very early winter use, we have no better variety. Oct. to Jan.

Lawrence. Medium to large, golden yellow, with melting, aromatic flesh. Unsurpassed as an early winter Pear. The tree is hardy, healthy and productive, bearing large crops annually. Nov. and Dec.

Flemish Beauty. This fine old Pear is still one of the hardiest and most generally successful over a wide range of country, producing good crops annually of large, handsome fruit that is exceptionally good in quality. Sept. and Oct.

Wilder. Handsome, melting, sweet, pleasant and of the best quality for an early Pear. Aug.

Duchesse d'Angouleme. Very large; greenish yellow, sometimes a little russeted. Makes a beautiful tree. Oct. and Nov.

Keiffer. This has become a profitable market variety on account of its good shipping and keeping qualities; its extraordinary size and beauty also make it very salable. While not of the best quality it is one of the favorite sorts for canning or preserving, and the early-bearing, heavy-cropping trees render it obtainable in quantity. Oct. and Nov.

Showing the Productiveness of a Bartlett Pear Tree

Price for Standard Pear (for all varieties except otherwise noted) grown on best imported Pear stocks:
First class trees, 2 years, 5 to 6 feet high, 20 cents each, 10 for \$1.90, 100 for \$18.00.
Extra size trees, 2 years, 6 to 7 feet high, 25 cents each, 10 for \$2.25, 100 for \$20.00.

Orange Quince

Select Varieties of Quince

The Quince crop is usually reliable and not often destroyed by capricious weather variations. The trees grow well in any good soil, but prefer a deep, moist loam. They are easy to prune and spray, and need but little attention. In almost all local markets they find a ready sale, as for preserves, jellies and canning we have no finer fruit. The fruits of all varieties are quite fragrant.

Rea's Mammoth. This seedling of the Orange Quince has all the good qualities of that variety; its fair, handsome fruit is fully a third larger.

Bourgeat. Fruits of the largest size, round, smooth, of bright golden color, with small core. The tree exceeds all others in fruitfulness and bears when three or four years old.

Champion. A large, late-ripening sort, that produces good and constant crops. One of the best for sections not subject to early frosts.

Orange. The best of the older varieties, still more extensively cultivated than any other. Its large, roundish fruit ripens in October.

Angers. A productive old sort, with rather acid fruit.

Price of all varieties of Quince trees 3 to 4 feet high 30c. each, 10 for \$2.75, 100 for \$25.00; 2 to 3 feet high, 15c. each, 10 for \$1.35, 100 for \$12.00.

AMERICAN NUTS AND NUT CULTURE

The constant and growing demand for nuts, and the immense quantities of them yearly imported to meet it have given a great impetus to the planting of nut-bearing trees. So palatable and wholesome are the nut-kernels that they should become a staple article of food here, as in Europe. The returns from established nut-bearing orchards, as well as numerous experiments, show plainly how successful nut culture may be made in America. Most farms contain land that would pay better planted in nut-bearing trees than in anything else; the nuts, in many cases, paying better than farm crops or fruits, while the trees are growing into valuable timber.

The American Sweet Chestnut is adapted to a great portion of this country. It is valuable as a nut producing tree, timber and ornamental purposes. As high as \$14.00 per bushel has been paid for American Sweet Chestnuts when first brought into New York market. \$6.00 to \$10.00 per bushel is the common price.

Price of American Sweet Chestnut trees, 4 to 5 feet, 50c. each, 10 for \$4.50.

English Walnut. A fine, lofty-growing tree, with handsome, spreading head; produces large crops of thin-shelled, delicious nuts which are always in demand at good prices. They are fairly hardy and are fruiting here in the Genesee Valley.

Price of English Walnut trees, 3 to 4 feet, 75c. each, 10 for \$6.50.

Black Walnut. The common, well-known Black Walnut, the wood of which is most beautiful and valuable. It is very productive in nuts, which are much liked by many.

Price of Black Walnut trees, 5 to 6 feet, 50c. each, 4 to 5 feet, 35c. each.

Butternut. A fine native tree producing a large longish nut, which is prized for its sweet, oily, nutritious kernel.

Price of Butternut trees, 4 to 5 feet, 35c. each, 10 for \$3.00.

Chestnut, Spanish. A handsome round headed tree, producing abundantly, very large nuts that find a ready market at good prices.

Price of Spanish Chestnut trees, 4 to 5 feet, 50c. each.

Freight Charges Will Be Less Than You Expect.

There is a great deal of misunderstanding as to the cost of transportation charges on trees and plants. This is due largely to misrepresentation by agents in the hope that you will be prevented from taking advantage of our astonishingly low prices, on the highest grade trees and plants, by sending your order to us. We want you to know that this should not cause you any uneasiness as the freight charges are seldom more than 35 to 75 cents on 100 of our largest size trees. Please remember that no matter where you buy your trees and plants, you pay the freight anyway. If you buy them in your own home town, the freight charges are included in the price you pay, so whether you buy from us, at our low prices, or whether you buy from some dealer or agent closer to you, you pay the freight charges. It is as long as it is broad. Do not let anyone lead you to believe that the freight charges will be a big item.

**7 CENTS
EACH**

**Bargains in Plum and Cherry Trees
4 TO 5 FEET HIGH**

**\$6.48
Per 100**

These trees are first class in every way, 4 to 5 feet high, two year, well rooted and branched, and without doubt will live better when transplanting and grow more rapidly than large size trees; cost less to buy and less for freight and are more easily planted. The list of varieties includes the very best for garden and orchard planting.

HARDY VARIETIES OF CHERRY TREES.

Dyehouse. Medium size; red; acid; productive. Ripens just before Early Richmond. One of the best. June.

May Duke. Large: dark red; juicy and rich. Tree vigorous and productive. June.

Montmorency Ordinaire. A beautiful, large, red, acid Cherry of fine quality. Hardy and very prolific. Valuable market variety. Late June.

Olivet. Large; skin dark red: tender, rich, vinous, with mild sub-acid flavor. Productive. June.

English Morello. Large; reddish black; tender, juicy, acid, rich. Very reliable bearer and a money maker. July.

Early Richmond. Medium size; red; acid. Tree hardy, healthy and very productive. Most valuable and popular as a commercial sort. June.

Late Duke. Large; deep red; heart shaped; sub acid, fine flavor. July.

Ostheime. Medium; dark red; sub acid. Hardy and recommended for cold climates. July.

Wragg. Large: liver color; juicy and rich. Hardy and immense bearer. July.

PLUM AND PRUNE TREES.

York State Prune.

York State Prune. Large; blue; rich, juicy, fine. Excellent for garden or market.

Geuii. Very large; deep bluish purple; flesh yellowish green, sweet and pleasant. Sept.

Fellemburg Prune. Medium size; purple; flesh juicy and delicious. Very fine and an excellent commercial sort. Sept.

Tatge. An Iowa plum, much like Lombard in color, quality and season, and will succeed in the far North where other varieties fail.

Bradshaw. Very large; dark violet red; flesh yellow, juicy, good. valuable market sort. August.

Lombard. Medium to large; roundish, oval; dark red; flesh yellow, juicy and pleasant flavor. Hardy, popular, nearly always producing a crop. Late August.

Pond's Seedling. Very large and showy; light red; flesh rather coarse. Sept.

Imperial Gage. Medium to large; golden green; flesh juicy, rich, delicious. Middle of August.

Shropshire Damson. One of the favorite Damsons. Fruit oval; tree a good grower and enormously productive; fruit of medium size produced in thick clusters, dark purple color. October.

Shipper's Pride. Large, nearly round; dark purple; quite juicy, sweet; splendid shipper and marketer; moderate grower; productive.

General Hand. Very large, skin deep golden yellow, Mid-season.

Yellow Egg. A large and beautiful egg shape plum, excellent for cooking, productive. Aug.

Reine Claude. (Bavay's Green Gage.) A great favorite. Sept.

Grand Duke. One of the best late plums for market, purple and free from rot. Sept.

Niagara. A very early purple plum, bears enormous crops of fruit. Middle of Aug.

Thanksgiving. Very productive, good quality and long keeper; tree very productive.

Abundance. Tree a rapid grower, healthy, bears remarkably young and yields abundantly. Aug.

Wickson. The largest of the Japan plums, color bright cherry red, tree very productive. Sept.

Red June. The great early market plum and best in quality of the Japan plums. Aug.

Burbank. Unsurpassed for beauty and productiveness. Aug.

Showing Size of our
Trees 4 feet high.

Price for all varieties of trees on this page grown on the best imported French stocks:
Bargain size trees, 2 year, 4 to 5 feet high, 7 cents each, 10 for 65 cents, 100 for \$6.48.

15 CENTS EACH	Bargains in Apple Trees 4 TO 5 FEET HIGH	\$13.50 per 100
-------------------------	--	---------------------------

Some buyers of trees have an idea that nothing but the largest size trees are fit to plant, that all other sizes are poor trees. This is a mistake, as some of the best orchards are grown from the smaller size trees. Our 4 to 5 foot trees are not third-class, but first-class of their size, and while we do not recommend the small planter, or one who plants a few trees, to select these for his planting, we do recommend the medium and small trees to the orchardist. We have an especially nice lot of peaches, apples, pears, cherries and plums at special prices.

Below is a list of the different varieties of apples offered at bargain prices. Owing to lack of space we are unable to furnish a full description of each variety on this page, but same will be found on pages 6-12 of this catalogue.

Baldwin	Grimes Golden	McIntosh	Tolman Sweet
Ben Davis	General Grant	Northern Spy	Wealthy
Banana	Hyslop	Pewaukee	Walbridge
Duchess	King	R. I. Greening	Yellow Transparent
Early Harvest	Maiden's Blush	Red Astrachan	York Imperial

**Price for all varieties of Apple trees on this page grown on the best imported French apple stocks :
Bargain size trees, 2 year, 4 to 5 feet high, 15 cents each, 10 for \$1.45, 100 for \$13.50.**

15 CENTS EACH	Bargains in Standard Pear Trees 4 TO 5 FEET HIGH	\$12.00 per 100
-------------------------	--	---------------------------

Bartlett. Large, buttery, juicy, high flavored, great bearer ; very popular. Aug. and Sept.
Clapp's Favorite. Very large, yellow and dull red, with russet specks, melting, rich. Aug.
Keiffer. Its large size, handsome appearance and remarkable keeping and shipping qualities make it exceedingly profitable for market. Oct. and Nov.
Flemish Beauty. Large, juicy, rich ; one of the hardiest and most popular. Sept. and Oct.
Angouleme (Duchesse)—Very large, buttery, rich, juicy, excellent ; popular market variety. Oct. and Nov.
Anjou. Large, buttery, melting, rich, vinous. The best late fall and early winter variety. Oct.
Seckel. Small, skin rich, yellowish brown when fully ripe, with deep brownish red cheek ; flesh very fine grained, sweet and exceedingly juicy.
Lawrence. Medium, yellow, with brown dots, melting, pleasant, aromatic. Nov. and Dec.

**Price for all varieties of Standard Pear trees on this page, grown on the best imported French pear stocks ;
Bargain size trees, 2 year, 4 to 5 feet high, 15 cents each, 10 for \$1.35, 100 for \$12.00.**

7 CENTS EACH	Bargains in Peach Trees 3 TO 4 FEET HIGH	\$5.48 per 100
------------------------	--	--------------------------

Our Peach trees are all budded on stocks secured from the pits of the natural trees growing in the mountains of North Carolina, where disease is unknown.

Early Crawford. Large ; yellow and red ; good quality. An old standard. Reliable commercial sort.
Niagara. Large, yellow and red ; fine quality ; as good as Crawford but more dependable bearer ; the principal commercial sort now grown in the famous Niagara County peach belt.
Crawford's Late. Very large, productive and good ; yellow with dull red cheek. Flesh yellow. Last of September.
Elberta. Large, yellow and red, handsome, fair quality. Most popular market peach. Hardy and dependable.
Champion. Fruit large, beautiful in appearance ; flavor delicious, skin creamy white, with red cheek ; freestone. Trees hardy and prolific.
Fitzgerald. It is one of the hardiest peaches, both in bloom and tree ; very prolific, large size.
Crosby. Medium size ; bright orange yellow streaked with carmine. One of the best standard market sorts.
Chair's Choice. Has no superior in quality and flavor, and for profit is without a rival ; large, yellow, free, rich in color, flesh very firm, and ripens after Smock ; great bearer.
Foster. Large, deep orange red, becoming very dark red on the sunny side ; flesh yellow, very rich and juicy, with sub-acid flavor ; earlier than Early Crawford ; very handsome.

**Price for all varieties of Peach trees on this page :
Bargain size trees, 3 to 4 feet high, 7 cents each, 10 for 65 cents, 100 for \$5.48.**

GRAPES

Every season hath its pleasures;
Spring may boast her flowery prime
Yet the vineyard's ruby treasures
Brighten autumn's sob'rer time.

There is scarcely a yard so small, either in country or city, that room for one to a dozen or more grapevines cannot be found. They do admirably trained up to the side of any building, or along the garden fences, occupying but little room and furnishing an abundance of the healthiest of fruit. Plant about 8 feet apart, by the fence or building. For vineyards, make rows 8 feet apart, 6 to 10 feet in rows.

Niagara White Grapes

Niagara White. Occupies the same position among the white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe. Skin thin but tough; quality much like Concord.

Diamond White. The leading early white grape, ripening before Moore's Early. White, with rich yellow tinge; juicy, few seeds, almost free from pulp, excellent quality; above medium size, adheres firmly to stem. Vine like Concord in growth, hardness and foliage. Fine variety for both market and home garden.

Chas. A. Green White. Claimed by the introducer to be a new and valuable variety, a vigorous grower and an enormous yielder of very large and beautiful clusters of excellent fruit.

Moore's Early Black. Bunch large, berry large round with heavy bloom, vine exceedingly hardy. Its earliness makes it desirable for an early market. Its hardiness particularly adapts it to Canada and northern portions of the United States; succeeds admirably in the south.

Campbell's Early Black. Strong grower, with large, healthy foliage, productive; its keeping and shipping qualities are equalled by no other early grape. Ripens with Moore's Early. Bunch and berry, large glossy black with blue bloom, sweet and juicy, seeds few and small, part readily from the pulp. Stands at the head of early black grapes for quality.

Concord. Black. Early. Decidedly the most popular Grape in America, and deservedly so. Bunch large, shouldered, compact; berries large, covered with a rich bloom; skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy tender; vine a strong grower, very hardy, healthy and productive. For general cultivation the most reliable and profitable variety.

Worden. Black. Bunch large, sometimes shouldered, compact; berries very large, skin thin. Superior to the Concord in the following points: It is better in quality, has a larger berry, a more compact and handsome cluster and ripens five to ten days earlier.

Delaware. Red. Bunches small, compact, shouldered; berries rather small, round; skin thin, light red; flesh very juicy, sweet, spicy and delicious.

Brighton. Red. Bunch large, well formed; berries above medium to large, round; excellent flavor and quality; one of the earliest in ripening.

Price of all varieties of Grapes: Strong vines, 2-year, 15c. each, 10 for \$1.00, 100 for \$7.00. Strong vines, 1-year, 10c. each, 10 for 85 cents, 100 for \$5.00.

Grape Vines at a Bargain

12 Strong 2-Year Vines for 98 Cents

We offer 3 Worden, black; 3 Concord, black; 1 Campbell's Early, black; 2 Charles A. Green, white; 3 Niagara, white; all 2-year-old first-class grape vines for 98 cents, regular price being \$1.80.

Garden Roots

Conover's Colossal Asparagus. A standard variety of large size, tender and excellent quality.

Price for strong 2 year roots, 50 for 65c, 100 for \$1.00, 1000 for \$6.00.

Palmetto Asparagus. A very early variety; even, regular size, of excellent quality.

Price for strong 2 year roots, 50 for 65c, 100 for \$1.00, 1000 for \$6.00.

Linnaeus Rhubarb. Large, early, tender and fine. The very best of all.

Price of Rhubarb strong 2 year roots, 15c. each, 10 for \$1.00.

Holt's Mammoth Sage. Plants of strong growth. Leaves very large, borne well above the ground. Of strong flavor and superior quality.

Price of Holt's Sage, strong 2 year roots, 15c. each, 10 for \$1.00.

For 24 years we have been growing trees and plants, and have given their production the same careful study that agricultural specialists have given the tiling of the soil. Not only have we earnestly striven to grow the best, but a close observation has been kept of new varieties, in order to grow trees and plants for every purpose and location.

BLACKBERRIES

For garden culture, plant 4 feet apart in rows 5 feet apart. For field culture plant 3 feet apart in rows 6 feet apart. Pinch back canes when 3 or 4 feet high, and allow but three canes to the hill. Give about same treatment as raspberries.

Mersereau. Remarkably strong grower, upright, producing stout, stocky canes. Claimed to be the hardiest Blackberry, standing uninjured 20° below zero without protection. An enormous producer of extra-size berries, which are brilliant black and retain color; extra quality; sweet, rich and melting, without core. Ripens very early.

Eldorado. The vines are very hardy and vigorous, enduring the winters of the far Northwest without injury, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

Minnewaska blackberries has been \$300 per year for the past five years.

Snyder. Extremely hardy, enormously productive; medium size, no hard, sour core; sweet and juicy. The leading variety where hardiness is the consideration. Ripens early.

Erie. Fruit very large, a strong grower and great bearer.

Blower's. Claimed to be the hardiest, most productive, of finest quality and to bring the highest market price.

Lawton. The oldest blackberry under cultivation, too well known to need a description.

Price of all varieties of Blackberries, strong, well-rooted plants, 3 for 25 cents, 10 for 75 cents, 100 for \$2.50, 1000 for \$18.00.

Minnewaska. This wonderful, hardy, productive, good blackberry has not been forgotten by us, or our old patrons. Its principal points are hardiness, excellent quality, earliness, and continued bearing and productiveness. The secret of its great productiveness is that it is an enormous grower. A large grower near Rochester states that his average receipts from an acre of

GOOSEBERRIES

Plant in good rich soil and give a liberal dressing of manure every season. Regular pruning every year is essential for the production of fine fruit. The English varieties especially do best in partial shade and should be heavily mulched.

Chautauqua. Bush very vigorous, stout, upright; foliage large, glossy, dark green. Fruit large, smooth, veined, translucent; skin thick; quality very sweet and high-flavored.

Columbus. Bush a strong, robust grower; foliage large and glossy. Fruit large, oval; skin greenish yellow, smooth; of the highest quality.

Josselyn. (Red Jacket.) An American seedling of large size; smooth, prolific and hardy; of best quality.

Industry. This is without doubt the most thoroughly tested of the English varieties. The bush is strong, upright, immensely productive. Berries of the largest size, dark red, of excellent quality.

Price of all varieties of Gooseberries named above, strong 2 year bushes, 20c. each, 10 for \$1.80, 100 for \$15.00.

Downing Gooseberry. Is the largest and best of all native American varieties. The value of Downing lies in its large size, fine quality, beautiful appearance, vigorous growth, and freedom from mildew.

Price of Downing Gooseberry Strong 2 year bushes, 15c. each, 10 for \$1.25, 100 for \$10.00. Write for 1,000 prices.

White Grape Currants

The largest and best white. Garden not complete without it. Bush moderately vigorous, slender. branches somewhat spreading, productive Bunches three to four inches long. Berries quite uniformly large but vary from medium to very large. Translucent whitish, attractive in color, mild flavored, good quality.

Price of White Grape Currants strong 2 year old bushes, 10c. each, 10 for 75 cents, 100 for \$5.00, 1000 for \$48.00.

Home Garden Collection of Currants

12 Bushes 2 year for 65 cents.

3 Red Cross
3 Pres. Wilder
3 White Grape
3 Blk. Champ.

If you want your dollar to do double duty this fall, these 40 pages of selected trees and plants which are all priced far below real value, and at 50 per cent less than tree agents' prices, make that possible now. The purchasing power of your dollar was never greater than it will be this Spring.

Select Varieties of Currants

Plant in rows 6 feet apart and 4 feet apart in the rows, or, if to be cultivated both ways, 5 feet apart each way. Before planting, the roots should be shortened to 10 or 12 inches and, in planting, care should be taken to firm the earth about the roots. After planting, cut back the tops about one-half the previous year's growth. No plant will better repay generous treatment and high cultivation than the currant. Two or three forkfuls of good stable manure around each bush every fall is desirable.

President Wilder

The Best and Most Productive Red Currant

Wilder. (President Wilder.) Bush upright, vigorous; clusters above medium length; berries large to very large, averaging large; bright red; excellent, with a mild subacid flavor. Ripens early and remains bright and firm until very late. Because of its exceedingly vigorous growth, great productiveness, high quality and remaining good so long after ripening, we recommend this as one of the best red currants, both for table and market.

Cherry. Bush vigorous, stocky and compact; cluster rather short, with short stems; fruit averages large; color fine, bright red; berry thin-skinned, juicy and fine-flavored. One of the most productive of the large Currants.

Red Cross. A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. Very productive.

White Grape. Bush vigorous, somewhat spreading, productive; clusters long; berries large to very large, averaging large; of very attractive color, mild flavor and good quality. A good table variety.

Black Champion. Bush vigorous and productive; fruit averages above medium; pulp nearly sweet, mild-flavored. A desirable variety for general culture.

Fay. (Fay's Prolific). Bush vigorous but not quite so strong a grower as Cherry; cluster medium to long, with rather long stems; color darker; and berry averages large; juicy and less acid than Cherry.

Fay's Currant (reduced)

Price for all varieties of Currants, strong 2 year old bushes, 10 cents each, 10 for 75 cents, 100 for \$5.00, 1000 for \$48.00.
Strong 1 year old bushes, 7 cents each, 10 for 50 cents, 100 for \$4.00, 1000 for \$38.00.

"The recollection of quality remains long after price is forgotten." This is one of the truest things ever said, and while we do not know who was the author of these words, he expressed a sentiment which is heartily endorsed by each member of our firm. Quality is everything.

An Ideal
Plantation
of Kansas
Raspberries
Growing and
Fruiting on
Our Large
Fruit Farm.

Kansas Black Raspberry is a strong, vigorous grower, standing extremes of drought and cold, and bearing immense crops. Early, ripening just after Palmer. Berries size of Gregg, of better color; jet black and almost free from bloom; firm, of best quality, presents a handsome appearance, and brings highest price in market.

Conrath, Early Black Raspberry. In Conrath we have united vigor, hardiness, large size and productiveness; qualities that will give it a foremost rank. It resembles Gregg in many ways, being probably a seedling of that variety, and the fruit retains its large size to the last picking. The canes are of iron-clad hardiness, very prolific, and make a good healthy growth. It is one of the best of the very early black-caps.

Cumberland Black Raspberry

Gregg Black Raspberry. Of good size; fine quality; very productive and hardy. It takes the same position among black-caps as Cuthbert among the red sorts. No one can afford to be without it. The standard Blackcap by which others are judged.

Cumberland New Black Raspberry. This new berry is a very valuable acquisition. With its greatly superior size it combines the equally valuable characteristics of great firmness, splendid quality and wonderful productiveness. The plants are entirely hardy, very vigorous and healthy.

Columbian Purple Raspberry is a new variety, much resembling Shaffer in growth of bush and fruit. A strong grower, unexcelled for productiveness and desirable for canning. Nine rows, 150 feet long, yielded 66 bushels. Color of the berry purple, like the Shaffer.

Shaffer's Colossal Purple. An immense raspberry, both in cane and fruit. Canes are of wonderful vigor and size, hardy and enormously productive; berries are very large and of a purplish color.

Diamond Black Raspberry. (New) A valuable variety, hardy, productive, firm, of fine quality, jet black, and one of the best market sorts.

Price for all varieties of Black and Purple Raspberries named above, strong, well rooted plants, 10 for 35 cents, 100 for \$1.75, 1000 for \$15.00.

How many trees are growing on your farm? How many have you planted? A good fruit tree, well cared for, gains value rapidly. They work for you while you sleep. The man who plants trees today and cares for them makes sure provision for old age.

The Loudon is the Best Hardy Red Raspberry on Earth

Loudon Raspberry, the hardiest of all, yields 200 bushels per acre, bears best on strong clayey loam, but succeeds well on sand. Prof. VanDeman has pronounced Loudon the best of all red raspberries. Considering its hardiness, productiveness, large size, quality and bright color, it will be difficult to secure a better raspberry than the Loudon.

Price of Loudon Raspberry Plants, extra strong. 50c per 12, \$1.75 per 100, \$18.00 per 1000.

The Cuthbert Red Raspberry. Large, Productive, Attractive.

This is a valuable variety well tested throughout the country. It has given good results both for home use and market. Cuthbert is a good vigorous grower and possesses vitality necessary for a popular variety. It yields bountifully of large and beautiful bright red berries, which are easily picked and always command good prices. No fruit grower can afford to omit planting Cuthbert, and surely no person who has a garden should attempt to get along without red raspberries.

Price of Cuthbert Raspberry, extra strong plants. 35c per 12, \$1.00 per 100. \$9.00 per 1000.

Strawberries

We have several acres of strawberries growing on our own soil and under the personal supervision of a member of our firm, hence we can absolutely guarantee their quality. After years of testing we have eliminated from our stock all varieties that have failed to prove of value for home and market use. The following list contains the very best varieties for general planting.

Well Grown and Packed Strawberries

Jessee. (Per.) One of the old standard varieties. A perfect strawberry for those having only a garden spot, very productive, fruit large and of fine quality.

Senator Dunlap. (Per.) Early. The plants are strong, healthy growers, with bright green, upright foliage. The berries are large, of handsome, dark red color, uniform in size and shape, which is conical. The meat is red through, firm, juicy and of fine texture. The flavor is very delicate. The popularity of this excellent sort increases steadily, owing to the extraordinary records which it has to its credit.

Corsican. (Per.) Medium to late. The largest berry of the brightest color, plant a great yielder with heavy foliage and exceedingly vigorous, resisting fungus, drought and even neglect of cultivation.

Brandywine. (Per.) Late. The strong, upright growing plants produce an abundance of very large berries on erect fruit stems. They are of good color and shape and possess a very fine peculiar flavor. Begins to ripen in midseason, and continues until blossoms are killed by the frost.

Sample. (Imp.) Late. Of large size and yields enormous quantities of berries of excellent quality. The fruits retain their large size until the end of the season. They are of bright red color, very firm and of rich flavor. A standard shipping variety; also fine for family use. Many excellent qualities are combined in this remarkable sort.

McKinley. (Per.) Medium to late. Plants are of good size, thrifty, healthy growers, with many strong runners. Fruit large and firm, of round, conical shape and bright red color which extends clear through the meat. Always attractive and of highest quality.

Price for all varieties of strawberries named above, extra strong plants, (by express) 10 for 20 cents, 100 for 75 cents, 1000 for \$6.00.

Buying Choice Trees and Plants By Mail

It is easier to buy by mail than to go to a store. In many instances it is possible to buy a better quality of trees and plants by mail than can be procured in other ways.

The greater portion of our business is transacted through the mails. The planter in California can purchase with as great an assurance of satisfaction as if he personally selected his trees and plants.

Trees and Plants ordered are personally selected. One from our office, who has spent an entire lifetime in the business, carefully selects the trees and plants and follows instructions closely.

Our method of packing enables us to ship to remote sections with great success. We believe that we give more attention to digging and packing than is customary.

Our Mail Order Trees and Plants are flourishing in localities where the smoke of the railroad engine is never seen, and at other distant points where railroad charges would deter you from ordering.

Varieties of Trees and Plants—By Mail Postpaid at Prices Attached

80,000 Apple Trees. By mail. Especially for this season's mailing we have grown an extra fine block of one-year-old trees. Such trees that every buyer will be pleased with. The varieties are: **Northern Spy, Yellow Transparent, Wealthy, Baldwin, York Imperial, Duchess, Wagener, King, Jonathan, Ben Davis, and Transcendent Crab**

Price of one-year Apple trees named above, mailing size, 10c. each, 10 for 95 cents, 100 for \$8.00.

New and Special Varieties of Apples by Mail

McIntosh. Beautiful red winter apple of finest quality.

Banana. The apple which has sold at \$12.00 a box, hardy and a great bearer.

Bismarck. Remarkable characteristic of this apple is that of early fruitage, one-year grafts and two-year trees perfecting.

Price of the three varieties named above, 1 year, mailing size, 12 cents each, 10 for \$1.00, 100 for \$10.00.

Cherry Trees By Mail

For this season we can dig some extra fine mailing size trees, very strong, well rooted, 18 to 20 inches high, of varieties as follows: **Early Richmond, Montmorency,**

English Morello and Dyehouse.

Price of mailing size Cherry Trees, 25 cents each, 10 for \$2.25.

This view shows valuable orchards in the mountains of far distant States, grown from our mailing size trees, which are flourishing in many localities.

Peach Trees By Mail

We offer varieties of mailing size peach trees as follows: **Niagara, Elberta, Early and Late Crawford.**

Price of mailing size Peach Trees, 15 cents each, 10 for \$1.25, 100 for \$12.00.

Pear Trees By Mail.

We have by a special method grown some mailing size trees of a few varieties as follows: **Bartlett, Keiffer, Clapp's Favorite, Seckel, Flemish Beauty and Keiffer.**

Price of all varieties of mailing size Pear Trees, 25c. each, 10 for \$2.25.

Plum Trees By Mail

Plum trees generally grow so heavy at 1-year old that it is impossible to get mailing size trees, but we have some nice trees, strong, heavy rooted, two feet high, **Geuii, Abundance, Burbank, Climax, Red June, Wickson, Thanksgiving, Lombard, Bradshaw and Niagara.**

Price of mailing size Plum Trees, 25 cents each, 10 for \$2.25.

Sweet Cherry Trees of Mailing Size

We have but three varieties; **Black Tartarian, Windsor and Napoleon.**

Price of Sweet Cherry Trees, mailing size, 35 cents each, 10 for \$3.00.

Quince Trees By Mail

We offer three varieties of mailing size quince trees: **Orange, Bourgeat and Champion.** Very strong, heavily rooted, 18 to 20 inches high.

Price of Quince Trees, 25 cents each, 10 for \$2.25.

OUR GUARANTEE. While we exercise the greatest care to have our stock genuine and reliable, we agree to replace, on proper proof, all that may prove untrue to name as labeled, and it is hereby mutually agreed that our replacing it or offer to replace it shall operate as a liquidation of all damages.

TREES AND PLANTS BY MAIL POST PAID

Currant Bushes by Mail

Currants are perfectly hardy and may be planted in fall or spring. We offer only the best varieties.

Fay's Prolific Currant. The leading market variety. Extra long stems and large berries.

Perfection Currant. In color it is a beautiful, bright red, and of a size larger than the Fay.

Cherry Currant. Very large berries on short clusters; a robust, fruitful sort.

Red Cross Currant is an exception to the ordinary rule, being the sweetest currant ever produced.

Wilder Currant. Red, with large, fine-flavored fruit of a bright, attractive color. Few varieties equal it in productiveness and long-keeping.

Black Champion Currant. Produces large crops of excellent fruit.

White Grape Currant. The best white.

Price for all varieties of Currants named above, strong 2 yr. bushes, 10c each, 10 for \$1.00 postp'd.

Raspberries. We have only the best red varieties to offer for Spring as follows:

Loudon. The hardiest, most productive and best market red raspberry, superior quality.

Price of Loudon Raspberry, 6c each, 10 for 50c, 100 for \$2.25.

Cuthbert. The greatest market red raspberry, good grower with healthy foliage, fruit very firm.

Price of Cuthbert Raspberry, 5c each, 10 for 35c, 100 for \$1.25.

Blackberries by Mail

Snyder. Berries of medium size, sweet, melting. Very hardy and wonderfully productive.

Minnewaska. Berries large, juicy, sweet. Remarkably productive and hardy.

Eldorado. The canes are very hardy and vigorous; the berries are large, jet-black, very sweet.

Price for all varieties of Blackberries named above, 10c each, 10 for 50c, 100 for \$2.50, postpaid.

Strawberry Plants are especially adapted to mailing, for they bear transmission well, and our experience is something to be considered. Strawberry plants usually produce some fruit the first season planted. We offer the following selected varieties:

Corsican (Big berry) You can make no mistake in this variety.

Brandywine. A very late and firm berry, a good shipper.

Glen Mary One of the best varieties, large and productive.

Senator Dunlap. Early, an all round, rough and ready producer.

One of our Mailing Size Strawberry Plants

Price for all varieties of strawberries, 10 for 25c, 100 for 1.25.

Grape Vines by Mail

Worden. A splendid black grape.

Moore's Early (Black) Bunch and berry large, round with heavy blue bloom.

Concord. Bunch large, compact, berries large.

Brighton. The best red grape in cultivation.

Diamond. Leading early white grape.

Niagara. Occupies the same position among white varieties as Concord among black.

Price for all varieties of Grapes named above, strong 2 year vines, 15c each, 10 for \$1.25, postpaid.

Gooseberries by Mail

Chautauqua Gooseberry. Berries of the largest size, pale yellow, of finest flavor.

Red Jacket Gooseberry. Large, smooth, of good flavor; the bush very hardy.

Downing. A large and handsome pale green berry of splendid quality for dessert or cooking.

Price of Gooseberries named above, strong 2 year bushes, 15c each, 10 for \$1.45.

Industry Gooseberry. Fruit large, oval, dark red, hairy; beautiful and of the best quality.

Price of Industry, strong 2 year bushes, 25c each, 10 for \$2.35, postpaid.

The largest share of our business is from customers whom we never see—customers who order by mail from our catalogue. A patron from California wrote a few days ago: "Your prices are 50 per cent less than local prices here. Your fairness and courtesy make it a pleasure to deal with you."

Roses

All varieties of Roses named below are hardy, of healthy habit, 2 years old, well branched and good roots.

Baby Rambler. A dwarf (Bush) form of Crimson Rambler, and furthermore, Everblooming. Will bloom continuously throughout the summer if planted out-of-doors.

Crimson Rambler. A new Japanese Rose, bearing immense trusses of bright crimson flowers. A superb climber, very hardy, a free bloomer, and will give universal satisfaction. We recommend it to every planter.

Dorothy Perkins. Beautiful shell pink, and holds long without fading. Very fragrant with deep green foliage. Is a fine companion rose to plant with Crimson Rambler.

Marshall P. Wilder. Color, cherry carmine; richly shaded with maroon. Very fragrant and continues to bloom for a long period. In every way a superb rose.

Madam Plantier. Pure white, blooms in wonderful abundance, early in the season. It is entirely hardy.

Mrs. John Laing. Color, a soft delicate pink, with a satin tinge. Very fragrant. Blooms from early in the season until late autumn. Very desirable.

Paul Neyron. Deep rose color; delightfully fragrant; and by far the largest variety in cultivation.

General Jacqueminot. Brilliant crimson; large and fine. Beautiful in bud and a universal favorite.

Magna Charta. Pink, suffused with carmine; full, globular. Fragrant and excellent. In every way a fine rose.

Margaret Dickson. Pure white; very large; free bloomer. One of the best new sorts.

Coquette des Alps. White, slightly shaded with carmine; medium size; full and fragrant.

Anna de Diesbach. Brilliant crimson; large; fragrant, one of the best.

Prince Camille de Rohan. Deep velvety crimson. One of the darkest in cultivation and in every way a splendid rose.

Price of all varieties of Roses, strong 2 year bushes, 20c. each, 10 for \$1.90, 100 for \$15.00.

Hedge Plants

Norway Spruce.

There is no evergreen so largely planted as the Norway Spruce. It is indeed a tree possessed with great beauty at all seasons of the year, but particularly in winter when its branches are weighed down with newly fallen snow. This spruce is a rapid grower and is often used as a lawn fence between village or city lots. Norway Spruce can be planted most effectively in groups on the lawn, imitating nature, planting without any particular order, but far enough apart to give each tree an opportunity to expand itself in its beauty.

Price of Norway Spruce 18 to 24 inches, 15c each, 10 for \$1.35, 100 for \$12.00; 2 to 3 feet, 25c each, 10 for \$2.25, 100 for \$20.00.

California Privet. A vigorous-growing variety, of fine habit, thick, glossy, nearly evergreen leaves. Of all ornamental hedge-plants this is the most highly prized. If cut to the ground one or two years after planting, it makes a very thick hedge right from the bottom, sending up many strong shoots. The leaves are a rich green, and will remain on the plants up to Christmas, and if they are a little sheltered they will keep green almost all winter. This is especially the case if the hedge has attained some age and has frequently been trimmed. Though it is a strong grower, it can be kept to a low size by frequent trimming.

Price of California Privet strong plants, 18 to 24 in. high, 7c each, 10 for 50c, 100 for \$3.50, 1000 for \$30.00; 12 to 15 in. high, 5c each, 10 for 35c, 100 for \$2.75, 1000 for \$23.00

Specimen Plant of California Privet in Full Bloom

CALIFORNIA PRIVET We have 100,000 extra nice Calif. Privet plants well branched, 12 to 15 in. high 5 cents each, 10 for 35c, 100 for \$2.75, 1000 for \$23.00. **AT SPECIAL PRICES**

Cut-Leaved Weeping Birch.

The Cut-Leaved Weeping Birch. This noble tree is not only the most popular of the weeping trees, but it is decidedly the best. Its tall, slender, yet vigorous growth, graceful branches, silvery white bark, and delicately cut foliage, present a combination of attractive characteristics rarely met with in a single tree.

Price of Cut-leaved Weeping Birch, 4 to 6 feet trees 35c. each, 10 for \$3.00.

Maple, Silver Leaved or White. Foliage bright green above and silvery underneath. An exceedingly rapid grower. Makes a large tree. A very satisfactory tree to plant in large quantities.

Price of Silver-leaved Maple, 8 to 10 feet 50c. each, 6 to 8 feet 35c. each, 10 for \$3.00.

Carolina Poplar. For a quickly growing shade tree, there is no tree which equals the Carolina Poplar. It is broadly pyramidal form, very robust in growth, with large glossy, green leaves. It stands the smoke and dust of the city streets better than any other shade tree. Very useful for planting as a screen to shut out unattractive buildings.

Price of Carolina Poplar trees, 8 to 10 feet, 25c. each 10 for \$3.25, 100 for \$18.00. Extra large, 10 to 12 feet trees, selected, 35c. each, 10 for \$3.00. **6 to 8 feet, 15c each, 10 for \$1.25, 100 for \$10.00.**

American Elm. The most admired of all American trees. It is very attractive in any suitable location, it is entirely hardy and easily transplanted. There are more elm trees planted along our streets and highways than any other variety.

Price of American Elm: First-class trees, 6 to 8 feet high, 35c. each, 10 for \$3.00; 8 to 10 feet high, 50c. each, 10 for \$4.50.

Purple Leaf Beech. The blood-leaved tree possesses all the qualifications of an ordinary beech, and in addition has beautiful red leaves.

Price of Purple Beech trees, 3 ft. high, 50c., 10 for \$4.50.

Wier's Cut-Leaved Maple. One of the most remarkable and beautiful trees, with cut or dissected foliage. Its growth is rapid, shoots slender and drooping, giving it a habit almost as graceful as cut-leaved Birch.

Price of Wier's Cut-Leaved Maple trees, 8 to 10 feet, 60c. each. 6 to 8 feet, 50c. each, 10 for \$4.50.

Norway Maple. This is one of the hardiest ornamental shade trees, and one of the most beautiful. It makes more of a wide spreading tree than the sugar maple.

Price of Norway trees, 8 to 10 feet, 75c. each, 6 to 8 feet, 50c. each, 10 for \$4.50.

American Linden or Basswood. A rapid growing, large-sized, beautiful native tree, with very large leaves and fragrant flowers.

Price of American Linden trees, 6 to 8 feet, 40c. each.

WE HAVE THOUSANDS OF FLOWERING SHRUBS, VINES AND ORNAMENTAL TREES.

We have no room to offer a long list of varieties this Spring so if you do not find what you need in this Catalogue write us for prices. We can save you money on anything you might need.

CAROLINA POPLAR

We offer 25,000 extra fine Carolina Poplar Trees, 6 to 8 feet at 15 cents each, 10 for \$1.25, 100 for \$10.00.

AT A BARGAIN PRICE

Hardy Flowering Shrubs

The *Spiræas* are all elegant low shrubs, of easiest culture, and their blooming extends over a period of three months.

Spiræa Billardi. Rose color, Blooms nearly all summer.

Spiræa Callosa Alba. A white flowering variety, of dwarf habit; very fine.

Spiræa Douglassi. Has spikes of beautiful, deep rose-colored flowers in July and August.

Spiræa Callosa Rosea. Has large panicles of deep rosy blossoms; grows freely and blooms nearly all summer; fine.

Spiræa Van Houttei. This is undoubtedly the best of the *spiræas*. The cut shown is a fair one and shows it in full blossom. The blossoms are white. Do not pass it by.

Althea. A large shrub, sometimes trimmed into tree form, that blooms freely in August or September, when almost every tree is out of bloom. Vigorous grower and succeeds everywhere. Also called Rose of Sharon. We can furnish double varieties in these colors; *purple, red, pink, white.*

Deutzia, Crenata, Double-Flowering. A hardy vigorous shrub that does not suffer from insects or diseases and early in the season is fairly covered with very showy double white flowers that on the edge are slightly tinged with rose. Handsome, desirable shrub.

Deutzia, Gracilis. Pure white flowers in June. Two feet high when fully grown.

Deutzia, Lemoinei. Dwarf, the flowers are large, pure white and produced freely.

Deutzia, Pride of Rochester. Blooms in May. Double, white, tinted with rose on the edge.

Snowball, Common. A popular shrub. Makes a large bush. Bears balls of pure white flowers in June.

Japan Barberry Thunbergii. One of the most hardy and valuable species; foliage tinted in autumn.

Common Barberry. Clusters of red berries.

Purple Barberry. Similar to Common Barberry only that the foliage is purple.

Lilac, Purple. An old favorite; purple flowers.

Lilac, White. A well known favorite.

Hydrangea, Paniculata Grandiflora. Absolutely hardy; thrives in all soils; grows rapidly and blossoms profusely. The flowers are pure white, afterward changing to pink, and are borne in large pyramidal trusses often more than a foot long and 6 to 8 inches in diameter. Begins to bloom early in August, and continues to bloom for several weeks. Wherever known it is considered to be one of the finest flowering shrubs cultivated. It is equally valuable for planting singly or massing in beds. We heartily commend it to all lovers of the beautiful. Attains a height of from 3 to 5 feet. Requires annual and severe pruning to obtain best results.

Weigelas. A group of very beautiful shrubs easily grown and always in demand. Entirely hardy, profuse bloomers.

Weigela, Candida. The flowers are of the purest

A Bush of *Spiræa Van Houttei* in Full Bloom

white, blooming in June, and all summer. Hardy.

Weigela, Eva Rathke. With showy, bright red flowers borne freely during the summer.

Weigela, Floribunda. The flowers are dark crimson, with white stamens somewhat like Fuchsia flowers. It blooms in the Spring and in the fall.

Weigela, Rosea. The best known sort. A great favorite. Rose-colored.

***Forsythia Fortunei* (Golden Bells).** Deep yellow flowers in great profusion in April.

Mock Orange. Flowers white, deliciously perfumed. Derives its name owing to flowers resembling orange blossoms; a delightful substitute for that noble flower.

Fringe Purple or Smoke Tree. A very elegant and ornamental large shrub, with curious, hair-like flowers of a pinkish brown color which sometimes literally cover the tree and remain all summer.

***Upright Honey Suckle* (white).** Pure white flowers followed by deep red berries that fill the bush till autumn; very attractive.

***Upright Honey Suckle* (pink).** Pink flowers which contrast beautifully with the foliage.

***Calycanthus* (Sweet-scented shrub).** The wood is fragrant; foliage rich; flowers are of chocolate color, having a peculiarly agreeable odor.
